Dan,

Do you want the 4-page errata document posted at the **beginning** of the SFS report (as the new pages 1-4) at

www.epa.gov/region7/cleanup/npl_files/west_lake_landfill/supplemental_feasibility_study-west_lake_landfill_ou-1.pdf

...or should it be inserted somewhere after the FIGURES title page (304)?

Please advise. Thanks --MK

Subject: Errata page for the West Lake Landfill SFS report

Martin,

Attached is a PDF file with an errata page for the Westlake SFS report. The errata page corrects a label on Figure 2 of the SFS report. This file needs to be posted on the Internet at the same URL that contains the SFS report, so the public can access it. Please let me know if you have any questions, and let me know when the document has been posted.

Sincerely,

Daniel R. Gravatt, PG

Memo

To: File, West Lake Landfill OU1
From: Dan Gravatt, RPM 
Date: January 20, 2012
Re: Errata Page for the West Lake Landfill Supplemental Feasibility Study

Attached to this memo is a replacement page for Figure 2 of the Revised SFS which depicts the West Lake Landfill Site and surrounding properties. The page contained in the Revised SFS erroneously labeled the facility across the street from the Allied Waste Services Landfill Office as Kirchner Block & Brick. The correct label for this facility is "Hussman."

RECEIVED
JAN 10 2012

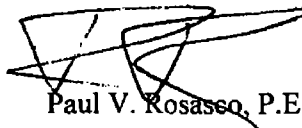

**SUBJECT: Revised Figure 2 for the Supplemental Feasibility Study Report
Radiological-Impacted Material Excavation Alternatives Analysis
West Lake Landfill Operable Unit 1, Bridgeton, Missouri**

Dear Mr. Gravatt,

On behalf of Cotter Corporation (N.S.L.), Laidlaw Waste Systems (Bridgeton), Inc., and Rock Road Industries, Inc., and with funding provided by the United States Department of Energy (the "Respondents"), enclosed please find a revised version of Figure 2. We discovered after submittal of the final SFS report that the property across the street had incorrectly been identified as Kirchner Block and Brick rather than Hussmann. This corrects that figure.

If you have any questions or need additional copies, please do not hesitate to contact me.

Sincerely,
ENGINEERING MANAGEMENT SUPPORT, Inc.

Paul V. Rosasco, P.E.
